As per ICAR guidelines, ICAR-CRIDA undertook Swachhata Pakhwada activities from 16-31 December, 2021. The activities were mainly pertaining to cleanliness and sanitation drive, awareness of waste management, promotion of organic farming practices in the different MGMG adopted villages like Rangareddy, Nalgonda, Suryapet, Mahbubnagar, Yadagiri Bhuvanagiri, Sangareddy and Balanagar and cleanliness of the premises of our institutes and farms at Hayatnagar Research Farm and Gungal Research Farm. A team of 7 scientists were allotted for the activities in each of the villages and the activities connected with the institute and the farms were affected by the employees of the institute. As part of the covid protocols, masks and gloves were distributed to all the farmers who participated in the program along with caps. The date wise activities undertaken by the institute are reported below:

16th December 2021

Displaying the banners at prominent places and administration of Swachhata pledge to the employees

The Swachhata Pakhwada activities started on 16th December with display of banners at the prominent place of main office, Hayatnagar Research Farm (HRF) and Gungal Research Farm (GRF). Dr. V. K. Singh, Director, ICAR-CRIDA administered the Swachhata pledge to about 100 employees of the institute and urged the employees to adopt the swachhta abhyan as part of their routine activities and to maintain the premises of the institute clean. Dr S S Balloli, Principal Scientist then briefed the employees about the activities being planned during Swachhata Pakhwada during 16-31 December 2021. After taking the oath, the staff participated in planting of tress in Hayatnagar and Gungal Research Farms.

Cleanliness and sanitation drive in Melkilguda village, Yacharam mandal, Ranga Reddy district, Telangana

ICAR-CRIDA organized cleanliness and sanitization drive in Melkilguda village, Yacharam Mandal, Ranga Reddy district, Telangana on 18th December 2021. The village is an adopted village under Mera Gaon Mere Gaurav programme of the institute. The programme was attended by village Sarpanch Smt Ch Yadamma, Smt Berugala Shardha MPTC, Agricultural Extension Officer, Smt Sri Laxmi, scientists of ICAR-CRIDA, farmers, and Asha workers. During the programme, ICAR-CRIDA scientist educated the farmers about the importance of keeping their surrounding neat and clean and asked them to devote some time daily for maintaining cleanliness. The villagers were asked to undergo the vaccination for covid and to follow precautions like washing hand regularly, wearing masks, and maintaining appropriate social distance. ICAR-CRIDA scientists during the interaction with the farmers stressed the need of crop diversification and soil water conservation for enhancing productivity and profitability. About 50 farmers participated in the event.
Cleanliness drive in campuses and surroundings including residential colony

As a part of Swachhta Pakhwada action plan, the staff of ICAR-CRIDA, Hyderabad participated in cleaning the campuses and residential colony on 19th December, 2021 by following Covid protocols. Dr V. K. Singh, Director stressed to keep our working place neat and clean. He also asked all the employees to discard the waste cup, papers, and plastic bags in the baskets that have been kept for this purpose. The staff members undertook cleaning of the main office premises at Santoshnagar, Hayatnagar Research Farm, Gungal Research Farm, adjoining areas of the main office and residential colony. The Corporator, Shri Nava Jeevan Reddy also participated in the Swachhta Pakhwada organised at HRF. During the cleaning process, the biodegradable waste that was collected was dumped in the compost pits. About 100 staff members participated in the event.

**Awareness programme at Kommaigudem village, Nalgonda district**

A programme was organized at Kommaigudem village, Rammannapeta Mandal of Nalgonda district on 20th December, to create awareness on the importance Swachhta Pakhwada, efficient recycling of farm waste and kitchen waste through composting, and need to avoid the use of plastics. Scientists from ICAR-CRIDA and about 40 farmers participated in the programme. Dr Amarender Reddy in his introductory remarks briefed about the purpose of the programme. Dr. A.K. Indoria emphasized on the importance of residue recycling through composting and soil test based nutrient management. Dr. Venkatesh highlighted the importance of agroforestry systems for improving soil health and farm productivity. Dr Manoranjan Kumar briefed on the need for adoption of soil and water conservation measures for higher resource use efficiency and conservation of natural resources. Later, the scientists visited the farmers’ fields to take stock of residue management and suggested the farmers to adopt composting for efficient recycling of farm residues. The scientists met Mr. Komatireddy Chinna Venkatareddy, Chairman, Chityal Municipality and briefed him about the Swachhata Pakhwada and Mera Gaon Mera Gaurav programme in the selected villages of Nalgonda district.
Awareness on cleanliness, recycling of waste water, water harvesting for agriculture/kitchen gardens at Pillalamarri village, Suryapet district

As a part of Swachhta Pakhwada action plan, the staff of ICAR-CRIDA, Hyderabad participated in awareness programme on cleanliness, recycling of waste water, water harvesting for agriculture/kitchen gardens at Pillalamarri village of Suryapet district of Telangana state on 21st December 2021. This village is an adopted village under Mera Gaon Mera Guarav programme of the institute. Shri Sri.Srinivas Garu, Village Councilor, Shri Ramarao, District Agricultural Officer (DAO), scientists of ICAR-CRIDA and about 50 farmers participated in the programme. During the programme, the scientists educated the farmers about the importance of cleanliness, recycling of waste water, harvesting of rainwater for agriculture and measures to reduce paddy residue burning. As a covid precautionary measure, masks and caps were distributed to all the participating farmers. The participants also undertook cleaning of school premises, village panchayat and surrounding places. The activity undertaken by the group was covered by the leading Telugu newspapers.
Participants of Swachhta Pakhwada programme organized on 21st December 2021 at Pillalamarri village

District Agricultural Officer Shri Ramarao addressing the participants on 21st December 2021
Fostering healthy competition: Debate competition on “Is Swachhta Everyone’s Responsibility?”

For fostering healthy competition among the staff members as part of Swachhta Pakhwada action plan a debate competition was organized on 22nd December 2021. The topic of the debate was “Is Swachhta Everyone’s Responsibility?” About 10 participants (five spoke in favour of the motion and five against). The competition was attended by around 50 staff members of the institute. The participants were given 5 minutes to present their views in their convenient medium of communication. There was active interaction among the staff and participants during the program. The winners of the competition will be awarded the prizes on 31st December 2021.
Participants of debate competition held on 22nd December 2021 at ICAR-CRIDA

23rd December 2021

Kisan Diwas at Hayatnagar Research Farm

ICAR-CRIDA organized Kisan Diwas on 23rd December 2021 at Hayatnagar Research Farm (HRF). Scientists and technical staff of ICAR-CRIDA, KVK Ranga Reddy staff and about 150 farmers and inputs dealers from Ranga Reddy, Warangal, Khammam districts participated in the event. Dr I Srinivas, Principal Scientist and OIC(HRF) welcomed the participants. Dr S S Balloli, Principal Scientist informed the gathering that the Kisan Diwas on 23rd December is being organized to celebrate the birth anniversary of our Former Prime Minister of India, Shri Chaudhary Charan Singh. He also briefed the notable contributions made by Chaudhary Charan Singh for the benefit of the farming community. Dr D B V Ramana, Principal Scientist and Head, KVK Ranga Reddy educated the farmers about the means and ways of managing animal waste efficiently through bio-gas and vermi-compost production. He also stressed to minimize the use of single plastic in the day-to-day chores. Dr K Sammi Reddy, Head Division of Resource Management appraised the importance of preparation of organic manures from the wastes generated in villages such as cattle dung, urine, crop residues, ash, vegetable wastes etc through pit method or NADEP method under Waste to Wealth Theme. He also stressed the need of practicing integrated nutrient management for sustaining the production and for maintaining good soil health. Dr M Osman, Director In-charge asked the farmers to be self-
reliant and produce their food-fruit-fibre requirement from their own field. He also suggested to diversify their cropping pattern by cultivating alternate and remunerative oil seed/ pulses/ fruits/ crops in lieu of paddy. He also stressed that by keeping the surroundings neat, clean and hygiene it is possible to prevent the spread of many diseases like dengue, malaria, etc. Later, the farmers taken to agro-forestry, fodder production, seed production, farm machinery, water shed management blocks/units for educating about the recent technologies/methodologies.
Swachhta Awareness Drive at Chowdarpally Village, Yacharam Mandal, Ranga Reddy district

A Swachchta awareness drive was organized by ICAR-CRIDA on 24th December 2021 at Chowdarpally Village, Yacharam Mandal Ranga Reddy district. Dr M. Osman, Director In-charge along with the staff of ICAR-CRIDA and residents of Chowdarpally village undertook Swachchta Rally around the village to create awareness amongst the villagers. The staff also educated about the ill-effects of parthenium weed and demonstrated the safe eradication/removal and disposal of the weed.

In the interactive session with the villagers, Dr M. Srinivasa Rao, Principal Scientist, ICAR-CRIDA, explained about the importance of cleanliness in our day-to-day life as well as in agriculture operations at village level. Dr. K. Srinivas, Dr. T.V Prasad, Dr. G. Pratibha, Dr. S. S. Balloli and Dr. Ravikant Adake also took active part in the programme and educated the villagers about the role of personal hygiene, importance of wearing mask and washing hands in combating the pandemics like corona. The scientists of ICAR-CRIDA during the session also suggested remedial/control measures for major agricultural pest problems like thrips and midge incidence on Solanaceous crops (brinjal, tomato and chillies). The interactive session was held by following appropriate covid guidelines. Mask and caps were also distributed to the participants. Apart from the staff of ICAR-CRIDA the event was attended by Shri Nayini Narsi Reddy, Village Sarpanch and about 50 farmers. Later, the staff and the villagers participated in cleaning of school premises, village panchayat, Raithu Vedica and other places.

Fostering healthy competition, Essay and Drawing competition for school children in Gollapalli Village, Jadcherla Mandal

As a part of Swachhta Pakhwada action plan, a team of Scientists from ICAR-CRIDA organized healthy competitions i.e. Essay and Drawing competition for students of Zilla Parishad High School, Gollapalli, an adopted village of MGMG program in Jadcherla Mandal.

During the programme, the Scientists educated the students about the importance of cleanliness and conducted a cleanliness drive in the school premises. The students were also shown videos developed by ICAR regarding kitchen trash management and composting techniques. Drawing and essay writing competitions were held on the topic of "Swachhta and healthy living." A total of 100 pupils participated in various competitions. The winners of the competitions were appreciated and awarded. The program was attended by Mr. Gopinath, Agricultural Officer, Jadcherla, Ms. Bhavani, Agriculture Extension Officer, Jadcherla, Mr. Raji Reddy, Sarpanch, Gollapalli Gram Panchayat, Headmaster and other teachers of the school. The Scientist's initiative and attempts to raise awareness of swachhta in the surroundings and lifestyles of students were applauded by the Headmaster. The activities undertaken by the group was covered by the leading Telugu newspapers.

27th December 2021

Swachhta Programme held at Katepalli village Motukondur Mandal, Yadadri – Bhuwanagiri district

As part of the Swachhta Pakhwada action plan, ICAR-CRIDA scientists and Department of Agriculture, Telangana together organized a Swachhta Programme at Katepalli village, Motukondur Mandal, Yadadri – Bhuwanagiri district on 27th December 2021. Apart from ICAR-CRIDA scientists, District Agriculture officials, namely, Mrs Anuradha, DAO, Mrs Sujatha, AO and Mr Ramesh, AEO participated in the programme. The programme was chaired by Mr. Mantri Raju, Sarpanch, Katepalli village and Co-Chaired by Mrs. Anuradha, DAO. About 51 farmers participated in the programme. At the outset, Dr. Jyothi Lakhsmi, PS welcomed all the officials and farmers. Later, Mrs. Sujatha, AO welcomed the scientists and farmers to the meeting and she has explained about different programmes undertaken by Telangana State Department of Agriculture in Katepalli Village. Swachhta caps and masks were distributed to the farmers by the Chairman and other officials. Dr. K. Sammi Reddy, Head, DRM explained about the soil testing, soil health management and about the preparation of quality manures from wastes generated in the village. He also explained about the importance of personal cleanliness and maintaining clean neighborhood to the gathering. Dr. K. V. Rao discussed about the importance of rainwater and soil conservation measures and their importance in the village and about the activities of Mera Gaon Mera Gaurav (MGMG) to be taken up in future in the village. Dr. JVNS Prasad, PS appraised the farmers about the
details of crop production technologies in Paddy, cotton, red gram which are major crops in the area. Dr. AGK Reddy, Sr Scientist explained about the organic mulching with the crop residues in vegetable production. Mr Raju, Sarpanch while addressing the gathering apprised the activities of Agriculture Department and thanked CRIDA scientists for giving the valuable advices to the famers. Mrs. Anuradha, DAO explained about the needs of farmers of village such as soil health cards, earthworms, safflower seed etc. During interactions, farmers particularly asked about the sowing dates of alternate crops to rice such as sesame, groundnut, safflower in the current *rabi* season. The programme was concluded by formal vote of thanks to participants by Dr. N. Ravikumar, PS, CRIDA.

Swachhta Programme at Katepalli village
28th December 2021

Swachhta Programme held at village Hardaspur, Kondapur Mandal, Sangareddy district.

As part of the Swachhta Pakhwada action plan, ICAR-CRIDA, Hyderabad celebrated Swachhata Pakwada on 28.12.2021 at Mera Gaon Mera Gaurav (MGMG) adopted village Hardaspur, Kondapur Mandal, Sangareddy district. An awareness rally on sanitation and hygiene was organised in the village. Later, farmers were made aware of the topic of waste to wealth. Discussions were also held on segregation of biodegradable and non-biodegradable waste with the farmers. Farmers were also made to understand the importance of weed management and removal of weed before the seed setting in a crop. They were given knowledge on the better management of vermicompost units. About 50 farmers participated in the programme. Vice president of the Hardaspur village, Kondapur mandal, Shri Karan Singh,
Agricultural officer Mr Ganesh, and scientists from CRIDA Dr. G Pratibha Principal Scientist (Agronomy), Dr. K Ravi Shankar, Principal Scientist (Agri. Extn.), Dr. B.M.K Raju, Principal Scientist, (Agri. statistics) and Dr. K.B.Sridhar Scientist Senior Scale (Agroforestry) participated in the event. Later, a meeting was held with district agricultural officer Mr. Narasimha Rao wherein cleanliness, alternate cropping system and residue management in the village were discussed.
29th December 2021

Swachhta Programme held at Peddarevelly village Balanagar Mandal Mahabubnagar District

As part of the Swachhta Pakhwada action plan, ICAR-CRIDA, Hyderabad celebrated Swachhta Pakwada on 29.12.2021 at Mera Gaon Mera Gaurav (MGMG) adopted village Peddarevelly, Balanagar Mandal Mahabubnagar District. A team of the scientists from ICAR-CRIDA comprising of Dr. K. Srinivas Reddy, Dr. V. Maruthi, Dr. P.K. Pankaj, N. Manikandan, N.S. Raju and Sarath Chandran organized the program. The team from CRIDA sensitized the farmers on the treatment and safe disposal of bio-degradable/non-biodegradable wastes. Scientists explained the compost making process from kitchen/farm wastes including vermicomposting. A total of 53 farmers participated in the awareness program. An awareness rally on sanitation and hygiene was organised in the village. The program was attended by Ms. Susmita (Agricultural Extension Officer) and Smt. Narmada, Sarpanch, Peddarevelly Panchayat. The Scientist's initiative and attempts to sensitize the farmers on converting kitchen/farm waste in to useful product (compost) was appreciated by the Sarpanch of the Panchayat and the farmers.
As part of the Swachhta Pakhwada action plan, the different activities undertaken from 16 to 29th December 2021 at CRIDA and at Mera Gaon Mera Gaurav adopted villages have been uploaded on our ICAR-CRIDA Facebook: https://www.facebook.com/CRIDAICAR and on ICAR-CRIDA Twitter: https://twitter.com/ICARCRIDA.
