Introduction

Transfer of Technology (TOT) Section, ICAR-Central Research Institute for Dryland Agriculture (CRIDA), Hyderabad is announcing a free online training program on “Participatory Extension Approaches for Climate Risk Management” sponsored by National Institute of Agricultural Extension Management (MANAGE), Hyderabad. Central Research Institute for Dryland Agriculture (CRIDA) is a National Research Institute established in 1985 with a mandate to carry out basic and applied research in rainfed farming. The Institute also undertakes National/International Collaborations and Consultancy Projects. CRIDA is the lead Institute and the National Nodal point for the National Innovations in Climate Resilient Agriculture (NICRA) which is being implemented at large number of Research Institutes of ICAR, State Agricultural Universities and more than 100 KVKs.

- ▶ **Objectives**
- ▶ The broad objectives of the training programme include provision of exposure and orientation to participants on following aspects.
 - ▶ •Enabling resilience of vulnerable communities and households through **Participatory Extension Approaches**.
 - ▶ •Sharing institutional experiences on climate resilient agriculture
 - ▶ •Scaling existing, proven climate resilient technologies to benefit more people through climate risk management
